PROJECTS

E-Commerce Management System

HTML, CSS, JavaScript, Django, Tailwind CSS

A robust e-commerce platform that enables owners to manage products efficiently by adding them to categories. Customers can explore the product catalog, add desired items to their cart, and proceed to checkout. The application ensures a smooth and user-friendly shopping experience.

Chat Verse - Real-Time Chat Application

HTML, CSS, JavaScript, Flask, Bootstrap, WebSocket

A real-time chat application where users can create chat rooms and share unique room codes with friends for group communication. The system leverages WebSocket to provide seamless, instant messaging functionality.

Filmora - Movie Information and Search Platform React

JS, JSX, Tailwind CSS, JavaScript

A visually appealing movie search platform built using React.js. The app enables users to browse and explore movies, search for specific titles, and view detailed information fetched via an API. It focuses on delivering a fast and responsive user experience.

News Wave Platform

ReactJS, TypeScript, JSX, TailwindCSS

Developed a feature-rich news application that allows users to explore, filter, and stay updated with the latest and most popular news stories.

Alpha Predictor – Stock Price Predictor Using ML

HTML, CSS, Bootstrap, JavaScript, Jupiter, Flask, Pandas, Machine Learning

Developed Time Series forecasting algorithm Prophet to predict stock market price of US based companies in real time using multi-variate, single step forecasting strategy.

EXPERIENCES

AADI FOUNDATION | APPRENTICESHIP

Aug 2024 - Aug 2024 | 1 Month

The training focused on both front-end and back-end development, with an emphasis on creating responsive, user-friendly interfaces and robust server-side functionalities.

REDX | INTERNSHIP

Dec 2023 - Jan 2024 | 2 Month

The Student Result Management System (SRMS) allows administrators to manage students' data, courses, and results while providing students with access to their results.

SUB PROJECTS

Voice Assistant Document – Python, Pytsx3, Speech Recognition
Document Managing App – Html, CSS, JavaScript
Blog Management System – Python, Bootstrap, Flask, JavaScript, PhpMyAdmin
Text & File Translator – Python, Bootstrap, Flask, JavaScript, CSS
Dictionary App – Python, Bootstrap, Flask, JavaScript, CSS
GeoProfiles – ReactJS, Leaflet.JS, TailwindCSS, JavaScript

HACKATHONS & INTERNSHIP

SDC REDX Internship (SRMS Using PHP)
Smart India Hackathon 2023 | Flipkart Grid 2024 | DecodeX 2025
